DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 74-82 are rejected under 35 U.S.C. 101 as not falling within one of the four categories of invention. Supreme Court precedent and recent Federal Circuit decisions indicate that a statutory "process" under 35 U.S.C. 101 must (1) be tied to another statutory category such as a particular apparatus, or (2) transform underlying subject matter such as an article or material to a different state or thing. While the instant claims recite a series of steps to be performed, the claims neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps. Therefore the claimed invention is directed to a non-statutory subject matter.

Allowable Subject Matter

Claim 74-82 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101 set forth in this Office action.
